TELESCOPIC PLATFORM SEATING
CALL TO ACTION

If you are looking for a seating solution that can adapt to your space, contact us today to learn more about our MAXAM+™ telescopic platform seating. How can we help you create a more flexible space for your audience?
MAXAM+™ TELESCOPIC PLATFORM

Available with our full line of seating from our premiere Quattro, Gallery and Metro lines, to budget-friendly Premier and Courtyard seating collections. MAXAM+™ is great for small to medium size entertainment facilities. Our features like custom and variable rise, tapered sections and extruded aluminum decking, MAXAM+™ is ready to perform in the most demanding audience environments. Whether it’s a full house for game day in your arena, or opening night for a major production in your performing arts center, we can provide the solution to execute your vision and meet the unique needs of your facility.

A New Dimension of Comfort

With the wide variety of seating solutions that MAXAM+™ can support, a comfortable seating solution is just around the corner. All seats are available in both telescopic and fixed versions, allowing an aesthetic continuity throughout a facility.

Easily fitting into both new and existing facility dimensions—our telescopic seating systems allow easy adjustment and make future maintenance, chair replacement and upgrading a breeze. State-of-the-art composite finishes and fully integrated systems allow maximum seating—while providing patrons with a singularly comfortable seating experience.

A. B. Quattro Classic Series
Shown as a Forward Fold. Available in nose mount, fixed, and portable stacking options. The Quattro Classic Series blends the comfort of a premium auditorium chair with the flexibility of telescopic seating platform, making these high value locations truly the best seats in the house. Designed to decrease labor costs and changeover time, platforms with Quattro Classic can efficiently change from stored to event-ready with each staff member operating rows of up to 14 chairs at a time for a single operator.

C. Gallery 3
Shown as Fold Down Upholstered. Gallery 3’s contemporary European styling gives your facility a fresh look and enhances the experience of your patrons.

With multiple chair widths available, your attendees will enjoy even lengthy performances. Available in manual, lift-assist, and semi-automatic, these rail mounted seats with a surprisingly slim envelope can be event ready with minimal effort.
MAXIMUM SEATING OPTIONS

Ranging from fold-down chairs and backrests to polymer gym-seat modules, MAXAM™ telescopic platforms can support a wide variety of audience seating options.

**Metro Upholstered and Polymer**

Metro’s innovative and distinctive design incorporates both comfort and style. The entire seat is molded using advanced engineering polymers, and is available in 18”, 19”, 20”, 21”, and 22” (450 mm, 475 mm, 500 mm, 525 mm, and 550 mm) standard widths (or any variation in-between). Metro has a full line of arm options including polymer, upholstered, and wood, as well as cup holders, and many other accessories.

**Premia Upholstered**

With a sprung foam seat and back, the fully upholstered Premia chair offers big comfort in a small package. This low-maintenance chair with folding backrest offers an innovative way to provide ergonomic comfort in a compact individual chair with semi-automatic operation.

**Premia Polymer**

The same design as the Premia Upholstered, the Premia Polymer is an affordable alternative with the increased durability that Polymer offers. No sacrifice to design is necessary as Polymer options come in 19 different colors to match your desired color palette.

**Upholstered Bench Seats | Club Bench**

The Club Bench closes into a small space, allowing for a minimum rise per row of just under 10½” (260 mm). The manual folding, preformed plywood seat and back come with your choice of upholstery. Also available without the backrest.

**Premia Polyurethane with Backrests**

Ergonomically designed for maximum comfort to provide ideal low- and mid-back support. Also engineered for maximum fan safety and easy bleacher cleaning. One person can raise or lower up to seven interconnected backrests at a time to minimize labor and operational costs.

**CourtSide 12 and 10 with Backrests**

_*Note:_ Premia Polymer is a commercial polymer, not a foam polymer. It has increased durability, safety, and a lower maintenance requirement.

MAXAM™ Telescopic Platform w/ Quattro Chairs

Xavier University • New Orleans, LA

Landis Construction
THE TOTAL PACKAGE

From our brand new XtremeLogo™ bleacher graphics that make your gym come alive to our Clarin® portable logo chairs, the Total Package Graphics Program helps create the ultimate gymnasium. Inspire your team, students and community with vibrant colored rails, spirited CourtSide™ Contour Backrests, integral CourtSide seat graphic logos, vivid Safety End Closure Curtain graphics, exciting Media Platform Rail Sleeve graphics, and our sleek new StepSigns™ and CourtSigns™. The customization options are nearly endless!

“The bleachers have generated a great deal of school pride with our student body. The kids are so proud when players from opposing schools come into the gym and comment on how beautiful the bleachers are. They’ve turned a nice gym into a state of the art gym...it’s stunning!”

Dennis Walton, CAA, Athletic Administrator
Biddeford High School, Biddeford, Maine

MAXAM® Telescopic Gym Bleacher w/ The Total Package
Biddeford High School • Biddeford, ME
Harriman Associates

XtremeLogo
The cornerstone of the Total Package Graphics Program, the XtremeLogo places your school’s mascot or logo on a grand scale in the center of your bleacher sections. Using a proprietary graphic transfer process, your XtremeLogo is permanently bonded to the CourtSide bleacher seats—no peeling, scuffing or scratching. Whether the bleachers are opened or closed, your logo will impress.

Clarin Portable Sideline Chairs
The choice of colleges and pro teams nationwide, Clarin portable chairs offer state-of-the-art logo customization for backs, seats and even seat gussets. Durable, full-color imprints of your mascot, logo, and spirit message give big-league sideline impact. Clarin’s proven worry-free dependable performance is legendary, delivering decades of service with the flexibility of interchangeable seats and backs.

CourtSide™ Graphic Logos
CourtSide™ graphic logos offer a spot for every fan to see your school’s logo or mascot at the end of each seating area. These durable, full-color custom graphic logos can even be individually customized for section designation.

StepSigns™
StepSigns™ are durable full-color signs pre-applied to the bleacher aisle steps during manufacturing. Offering full-color to single color imprinting, they are a great place to remind students, fans and competitors of your school motto or spirit message.

CourtSigns™
Featuring the same material and imprinting options as StepSigns, CourtSigns™ are pre-applied to the bleacher skirt boards during manufacturing. Their longer runs and placement make them ideal for ringing the court with your school name.

Media Platform
The rail sleeves of both detachable or permanently installed Media Platforms are the perfect spot to bring together your full-color logo, mascot. school name and spirit message to top off your bleachers with a message visible from anywhere in your gym.
SEATING CUSTOMIZATION

Signature Logo Program
Your local Hussey dealer will work with your community or school to develop a logo design that makes everyone proud. With the MAXAM+ Signature Logo Program, it is easy to create the most colorful and spirited bleacher logo design.

Standard Colors
The CourtSide™ XC10 and XCS12 are available in 15 standard colors (top 3 rows) and Metro is available in all 19. For accent lines, attention-grabbing signature logos or sticking with a solid color theme, select CourtSide or Metro as your ideal seat. Production polymer and powder coat colors can vary from printed samples shown, so Hussey makes sample chips available upon request. Custom color matches are also available.

Flex-Row™
Create endless variety of lock-in configurations to accommodate constantly changing needs like team seating, wheelchair access and scorer’s tables. Available with CourtSide™, Metro™, Club Bench and Gallery 2 seating.

Auto- Rotating Center Aisle Rails
This Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with the push of a button. No tools, no labor, no more missing or improperly positioned rails.

Portable Chair Storage Carts
Put an end to haphazard sideline chair storage with our specially engineered Clarin® chair storage carts. Make set-up and break-down a breeze by using stacking, hanging, flat or studio carts to keep your chairs organized and all in one place.

Backrests and Seat Spacers
Contrasting color CourtSide™ CB contoured bleacher backrests deliver truly comfortable bleacher seating and turn up the spirit. They can be incorporated anywhere on your bleachers, with or without seat spacers.

Colored Rails
Your bleacher aisle, end, front and rear rails carry on your school’s color scheme in one or more colors. Choose from a variety of standard color options or custom color matching to bring out school pride with a punch of color.

Safety End Closure Curtains
MAXAM® bleacher end curtains provide local gym security while displaying your school pride. Vibrant full-color customization can run all the way off the edges in large full-blood designs to wow people with your spirit as soon as they walk in the door.

THE TOTAL PACKAGE (cont.)
Portable Chair Storage Carts

These automatic row locks prevent accidental closure when the system is in use. This patented, innovative, low-profile design minimizes the chance of accidental damage, ensuring consistent operation.

These rolled form structural members provide continuous deck support, and are through-bolted to the frame and stabilizers. These designs deliver unparalleled strength, durability and rigidity.

This interlocking glide system is a rigid, one-piece formed design which tracks better and operates easier than systems with 1/2” (13 mm) row to row engagement. The 10” (254 mm) minimum interlock provides the industry’s most rigid, stable design. Our wheels are 5” (127 mm), resulting in less rolling friction.

The Captive Interlock System engages and aligns deck to deck. In addition, MAXAM® can be configured for three different row-spacing setups—adjustable on-site if required. MAXAM incorporates three stabilizer assemblies per section to provide improved tracking and stability.

Decking is captive in the riser beam and rests on the nose, firmly secured by the seat bracket. This system provides a stiff, secure walking surface with no exposed hardware. MAXAM is the only telescopic gym seat that utilizes transverse decking, using decking materials in accordance with their industry span rating. Thoroughly load tested and independently verified, MAXAM’s continuous full-length deck support system provides an enhanced level of performance, safety and stability.

Load-tested and certified for 30 tier single stack sections up to 25’ 6” (7772 mm), our slant frame design delivers improved cantilever strength and capacity. It also simplifies the installation process, reducing downtime for the facility. Critical support areas are all fastened with bolts, lock washers and lock nuts. Only MAXAM incorporates a steel to steel connection where the frame meets the seat, creating a stronger union and a safer gym seat.

Through bolted to the frame to provide additional stability, all bracing is crowned to remove sharp edges, and all ends are rounded for safety.
Safety End-Closure Curtains

Prevent unauthorized access to the underside of the bleacher, misuse that can result in injury, vandalism and potential liability risk. With Hussey Safety End-Closure Curtains, you can boost gym security while displaying your school pride. Built school-tough, they work beautifully and securely on new or existing bleachers. And Hussey offers the capability for full-bleed designs—including photographs. When paired with the CourtSide™ graphic logo, you can carry your school’s identity throughout the gym.

Integral Power

MAXAM®’s Powered Frame design applies force where needed—at the frames—and allows for better tracking over uneven floors. With five power options available, you buy only the power you need.

Elevated Front Aisle

Elevated front aisles start at various heights and run the length of the first row of the bleacher. EFA’s improve sight lines and are ideal installations for hockey rinks and more. All can be outfitted with front rails, end rails, front panels or access stairs. An ideal solution to facilitate egress and accommodate your individual building requirements. Access stairs can be added as an option.

Power Assist

Portable power permits one person to open and close manual sections by moving the tractor from section to section. Operates on standard 115 volt 20 amp service.

Motion Monitor

Audio-visual warning for an integrally powered unit that provides a flashing light with self-contained warning horn. Mounted at 85 dB, it vibrates when bleachers are in motion.

Fold & Stow Center Aisle Hand Rail

Requires no tool and stores on the deck in the bleacher’s closed position. Rail rotates and snaps into place.

Fold & Stow Center Aisle Hand Rail

Requires no tool and stores on the deck in the bleacher’s closed position. Rail rotates and snaps into place.

Self-Storing End Rails

This stylish self-storing rail is designed to meet the stringent code for rail loading and sphere passage. Add 12” (305 mm) to bank length for each railed end.

Colored Rails (Left)

Hussey’s breakthrough center handrail design ensures your patrons will always find a secure handhold while moving up or down the aisles – while dramatically reducing the labor of property owners in opening or closing your gym bleacher. Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with a push of a button.

Center Aisle Hand Rails

Safety rails include fixed, folding and removable options and feature a safe, fully closed design.

Fixed Front and Rear Rails

An ideal solution for traversing, elevated front aisles, freestanding, portable and reverse bid systems. All rails maintain a consistent design appearance.

Other Options

Limit Switch

Limit switches ensure the motor stops once the bank is completely open or closed.

Media Platform

Perfect for videotaping, photography, radio broadcasting or team talent scouting, the Hussey Media Platform creates a workable space for covering all the action. Optional rail sleeves can be customized to promote school spirit or generate revenue.

REVERSE-FOLD
Often utilized for balcony seating areas, reverse fold systems retract from back to front to create additional space behind the unit. This space can be used for practice areas, batting cages, gymnastics or any wide array of uses. Add back panels for a cleaner look, more versatility and improved safety.

WALL ATTACHED
Our most popular telescopic gym seating solution. Wall attached systems are supplied in 3 to 30 tier banks, are extremely adaptable, and efficiently recover floor space allowing you to save your front of your facility at all times.

Nor-Pac Seating
Portable Dolly
Most economical for large number of small portable sections. Two dollies are required to move one section. Maximum section weight of 4000 lbs (1800 kgs).

Integral Dolly
Ideal for high tier units, the integral lifting mechanism allows your staff to move multiple portable sections without additional equipment. Four mechanical screw jacks lift the unit and 12 large wheels allow for effortless transportation of your bleacher. Maximum section weight of 7000 lbs (3150 kgs).

PORTABLE & FREESTANDING
Portable
Traveling Units are a hybrid of recessed and portable banks. Traveling units use integral power to drive the entire bank from one setup position to another. Set-up time is greatly reduced compared to individual portable sections.

Freestanding
Ideal for high tier units, the integral lifting mechanism allows your staff to move multiple portable sections without additional equipment. Four mechanical screw jacks lift the unit and 12 large wheels allow for effortless transportation of your bleacher. Maximum section weight of 7000 lbs (3150 kgs).

RECESSED
This system utilizes a pocket in the wall to house the bleacher when closed. The ends may or may not be exposed, and the bleacher is visible from view typically under a balcony or mezzanine.

Recessed bleachers are ideal for upper and lower tiered sections, removable and new and can be installed with columns removable allowing the entire unit to be lowered when required.

A hybrid of recessed and portable banks, traveling units use integral power to drive the entire bank from one setup position to another. Set-up time is greatly reduced compared to individual portable sections.

Traveling Units

MXP TELESCOPIC PLATFORM

Professional Grade Style, Comfort & Functionality
MXP platforms are designed to support fully upholstered chairs – even premium VIP chairs from our Quattro® Collections.

Accommodating up to a 39 ⅜” (1M) premium seat back, your patrons will love the look and feel of MXP. With deeper row spacing, more legroom and our premium upholstered chair options, telescopic seating has never been more comfortable.

Plus, our new chair mounting system delivers the most stable, solid telescopic seating experience available today - one with the feel of a fixed auditorium chair and the flexibility of a telescopic platform.

No matter what chair you choose, it folds flat into the telescopic platform. MXP platforms and the chairs it supports are professional arena grade – designed to withstand the rigors of multiple changeovers a day.

Featuring an admirably stable and robust telescopic platform that accommodates Hussey’s premium seating styles, MXP is expertly engineered for arenas to save time and labor costs while providing the most comfortable and luxurious telescopic platform seating experience available.

Integrated Program Supports
MXP platforms offer nearly endless customization options for professional arena needs. Adding Integrated Program Supports to an MXP platform enables the section to be truncated at any row. You get the flexibility of choosing how many rows each section needs, on-demand. Engaging this feature is quick and easy with no extra personnel, parts or labor required, and the section is completely stable no matter where it is truncated.

Heavy-Duty Arena Features
MXP platforms focus on delivering on-the-spot configuration flexibility. Completely independent powered sections accommodate nearly any concert configuration easily and change over quickly. Railings can be customized to attach to any row within sections for maximum flexibility and to deliver the crowd control often required by popular tours. Best of all, railings store right on each section to eliminate loose parts and storage hassles.

Professional Grade Style, Comfort & Functionality
MXP platforms are designed to support fully upholstered chairs – even premium VIP chairs from our Quattro® Collections.

Accommodating up to a 39 ⅜” (1M) premium seat back, your patrons will love the look and feel of MXP. With deeper row spacing, more legroom and our premium upholstered chair options, telescopic seating has never been more comfortable.

Plus, our new chair mounting system delivers the most stable, solid telescopic seating experience available today - one with the feel of a fixed auditorium chair and the flexibility of a telescopic platform.

No matter what chair you choose, it folds flat into the telescopic platform. MXP platforms and the chairs it supports are professional arena grade – designed to withstand the rigors of multiple changeovers a day.
The understructure of any telescopic platform is the backbone of the system, and MXP’s understructure is engineered to provide maximum flexibility, safety, performance and reliability. Utilizing Hussey’s proven vertical frame design, MXP accommodates rises from 4”-24” (102-610 mm), row spacing from 32” - 39 3/8” (813mm - 1M) in 1” (25 mm) increments, and tapered sections up to 22 ½ degrees, providing maximum seating configuration flexibility.

A. Soft-Start Steerable Power
The most efficient system in the industry, our Soft-Start Steerable Power system utilizes existing power sources, has a controlled start to prevent wear and tear on the system and your facility, and allows a single operator to steer the section and fine-tune its final position.

B. Fully Captive Interlocks
Providing the ultimate in safety and performance, fully captive upper and lower interlocks ensure the frames can never separate. Plus, the upper interlocks provide a stable, locked deck when loaded so your audience will feel as safe and stable on the 30th row as on the first.

C. Adjustable Cantilevers
Creating an exceptionally quiet deck and better overall operational performance, the adjustable cantilevers eliminate friction points during open/close.

D. Tubular Knee Bracing
Designed to withstand heavy use and heavy loads, the tubular knee braces provide a safe, rigid seating surface.

E. Lower Captive Interlocks
The lower interlock design nests completely, permitting a zero-offset between tiers that minimizes the closed footprint of the system. Pre-tension guide rods cannot be bent or disengaged resulting in smooth, reliable operation every time.

Hussey Seating Company™

The Hussey Seating Company story dates back to 1835 with William Hussey’s tremendously successful plow design, and thus, the Hussey Plow Company was born. As times changed over the next sixty years, the family set about reinventing the business, evolving into the company that is now seating the world. Today, under the sixth generation of family leadership, Hussey Seating Company is proud to be known as the leading manufacturer of seating solutions throughout the world – in stadiums, arenas, schools, universities, colleges, places of worship and anywhere people gather.

Your partner for seating solutions.
