

## CourtSide **XC10** Seat

Hussey's CourtSide XC10 applies innovative design to traditional linear telescopic seating.

It provides a continuous 10" (254 mm) comfort-curve style bench seat with a "waterfall" front edge, to provide enhanced spectator comfort.

The unique design of the CourtSide uses dual texturing combined with a curvilinear front seat riser to produce its signature architectural style elements.

The CourtSide XC10 seating solution is a perfect choice with Hussey's MAXAM™ Telescopic Seating System providing each spectator a full 21½" (546 mm) of clear foot space adding to the overall comfort factor and event experience.

Environmental sensitivity is a cornerstone of Hussey's new product design process. The CourtSide XC10 is manufactured from 100% recyclable materials. The seat module is manufactured from HDPE (High Density Polyethylene) injected molded plastic.

The attachment bracket is 12-gauge steel that is used to securely fasten the seat with a metal-to-metal connection to the MAXAM™ Telescopic System for spectator safety and enhanced product performance.

The CourtSide Seating Collection is the perfect choice for any facility looking for enhanced spectator comfort, architectural design appeal, safe, reliable product performance and exceptional value.

## CourtSide Comfort

CourtSide XC10 incorporates a unique fore to aft contoured seat and a gradual “waterfall” curve on the forward edge that reduces pressure to the sensitive region of the thighs regardless of the leg position. Add a Spacer and Backrest for a clearly defined team bench and/or to maximize guest comfort.

## CourtSide Style

CourtSide’s linear and vertical elements enhance look and functionality. Contoured lines provide additional clear leg and foot space for spectator comfort. There’s ample room for a “continuous clean sweep” which is important for facility maintenance. The modern dual texture seat surface is easy to clean and maintain.

## CourtSide Custom

Select from any one of our standard, select or custom colors and add seat numbers, row letters or donor plates to help create additional revenue. Incorporate a “Signature Logo” in multiple colors or add the school logo to the end of each row in a new full color graphic application, an exclusive in the CourtSide Seating Collection.
