

Take **COMFORT** to a new dimension.

Set your gym apart from the crowd by offering truly comfortable bleacher seats. Hussey's backrests and seat spacers are just the ticket for seating spectators in comfort and style.

Our seat spacer—available with optional cup holder—offers an extra measure of comfort. The CourtSide XT seat spacer creates nearly 25% more personal space, a benefit that sits well with all spectators, especially larger adults.

Hussey's CourtSide CB contoured backrests are ergonomically designed for maximum comfort. While cheering the team, spectators can lean back and enjoy ideal low- and mid-back support.

Our backrests and seat spacers work beautifully with Hussey's CourtSide 10" and 12" seat modules. Choose either or both for an enhanced level of comfort on any or all of your bleacher seats. A truly comfortable gym seat will be a welcome surprise for your fans, and remember—comfortable seats can be reserved for VIPs as a way to generate revenue.

SUPPORT YOUR FANS IN COMFORT.

Don't settle for less than truly comfortable seating when planning a new gym. Contact your local Hussey Seating Dealer for expert design assistance. We have a solution to fit your budget—comfortably!

Seat comfort? There's room for improvement.

Combining seat spacers and backrests with Hussey's CourtSide 10" or 12" seat modules creates a truly comfortable individual seat space in an otherwise crowded bleacher environment.

This contoured backrest can be used on MAXAM+ units, with or without the CourtSide Seat Spacer. The spacer, available exclusively in black, is available on all MAXAM and MAXAM+ configurations. When combined with the CourtSide spacer, the backrest includes a matching spacer—also available exclusively in black.

The CourtSide XT seat spacer increases personal space by nearly 25%. This is especially important in accommodating "plus-sized" people who appreciate extra elbow room.

Like all Hussey products, our comfort features are engineered for quality and ease of use. One person can raise or lower up to seven contoured backrests at a time, which minimizes labor and operational costs.

Cup holders can be added to seat spacers as an extra amenity.

They reduce spills and cleanup costs, and offer the convenience patrons are accustomed to in movie theaters, stadiums and cars.

When folded down into the stored position, the contoured backrest sits above the deck. This protects both the deck and the backrest from marks and other damage.

Comfortable seats can be reserved for VIPs as a way to generate revenue. You can designate special seating by integrating seat numbers, row letters and graphic school or sponsor logos.
